

Werner Knaupp - Black and White

Werner Knaupp, participant of Documenta 6 and former professor at the Academy of Fine Arts in Nuremberg, will turn 75 on May 3rd this year.

The Bode Galerie is very pleased to be able to justify the start of the collaboration with Werner Knaupp with an exhibition of his current series of works. Works from the cycle "Westman Islands" are presented under the title "Black and White". Knaupp became known above all for his radical, uncompromising painterly work, which challenges us to deal with fundamental existential questions.

Parallel to the first exhibition at Galerie Bode, three further exhibitions will be dedicated to the artist: in the New Museum in Nuremberg (from May 11, 2011), in the Bayreuth Art Museum (April 17 - June 19, 2011) and in the Hof Art Association (April 13 - 5.6.2011).
